Brainstorm & IdeaPrioritization

Date	12 feb 2026
Team ID	LTVIP2026TMIDS80003
Project Name	Visualization Tool for Electric Vehicle Charge and Range Analysis
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template: Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

LTVIP2026TMIDS80003

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

10 minutes to prepare
 1 hour to collaborate
 2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

- Team gathering**
Invite who should participate in the session and send an invite. Share relevant information or pre-work ahead.
- Set the goal**
Think about the problem you'll be focusing on solving in the brainstorming session.
- Learn how to use the facilitator tools**
Use the facilitator superpowers to run a happy and productive session.

1 Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM

How might we help EV buyers, policy makers, and stakeholders explore electric vehicle performance, pricing, and charging infrastructure in India more effectively using interactive dashboards and data storytelling?

Key rules of brainstorming

To run a smooth and productive session

- Stay on topic
- Encourage wild ideas
- Defer judgment
- Listen to others
- Go for volume
- If possible, be visual

Need some inspiration?

Get a random stream of ideas to kickstart your work.

Step-2: Brainstorm, Idea Listing and Grouping

1 Brainstorm

Let's brainstorm ideas that come to mind that address your problem statement.

10 minutes

TIP You can generate a better idea by combining two or more ideas. Try to combine ideas from different clusters.

2 Group ideas

Take time planning your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and use it you and break it up into smaller sub-groups.

10 minutes

TIP You can generate a better idea by combining two or more ideas. Try to combine ideas from different clusters.

Step-3: Idea Prioritization

3 Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

TIP Participants can use their phones to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer tracking the ID tag on the keyboard.

Importance

If each of these ideas could get done without any difficulty or cost, which would have the most positive impact?

Feasibility

Regardless of how important, which ideas are more feasible than others? (Cost, time, effort, complexity, etc.)
